	www.miyaki.com	E-Mail	info@miyaki.com
		: Product Iden	
Product Name : ARISTO			
MSDS Number : C-033	<u> </u>		
Date of Prepared : 03/1	6/2007		
	product and a mixture : Mix	xture	
General Name : Silicone s			
An ingredient and a conte	ent : POLYALKYLFLUORORE	SIN, ALKOXYSILANE, F	IYDROCARBON SOLVENT,
-	NORMAL HEPTANE, W		
			PTANE) 64742-82-1 (WHITE SPIRIT)
The U.N. classification an	d the U.N. number : Class-	3:3295 (HYDROCARBC	N SOLVENT) Class-3:1206 (NORMAL HEPTANE) Class-3:1263 (WHITE SPIRIT)
	Section 3	: Hazardous In	
The name of a classificati	on : An inflammable liquid		
Danger : Ignition and exp	•	<u>,</u>	
Detrimental nature : Dam	age may be healthily done	e by suction of aerosol i	mist and solvent smell.
Ther	e is a possibility of causing	g organic-solvent poisor	ning.
This	product reacts with wat	er and acid, and an	alkali compound (hydrolysis), and generates the
	wing compounds. (Methan		
	ane are touched: Those wit		
	ith the possibility which sh	•	iratory-organs system.
	paratively low level toxicity		
	Those with the possibility		
Ecology influence : Toxici	ty is in an aquatic life living		
		h 4: First-Aid M	
When it goes into an eye	: It washes 15 minutes or	more with a lot of pure	e running water immediately.
When it adheres to the sk	cin:After wiping off with th	ne dry cloth so on the p	art which touched is flushed with a lot of soapsuds.
When it drinks : The thing	which remained into the	mouth is removed and	gives a lot of water or milk.
When a v	ictim does not have consci	ousness, don't give any	ything from a mouth.
When it inhales : It gargle	es with a lot of water.		
	Section 5	: Fire-Fighting	Measure
The fire-extinguishing me		an inflammable liquid.	
0 0	• A watch zone is	•	
	A suitable protein	ction implement (heat-	resistant clothes) is worn.
	An inflammable	thing is quickly remove	ed from the circumference.
			ned from the windward.
	The fire is exting	guished using a fire-ext	inguishing agent.
	Moving a contair	ner immediately in a sat	fe place in case of a surrounding fire, an impossible
	place is watering	g cooling therefore, a te	emperature rise of a container is prevented.
Fire-extinguishing agent	Powder, carbon dioxide, a	in alcoholic [-proof] bul	bble
	Section 6: A	ccidental Relea	ase Measure
	rounded with a rope etc. A	And entry of people is for	orbidden.
 The circumference is sur 			
•The circumference is sur •In an indoor case, it ven	•		
·In an indoor case, it ven	•	on is removed promptly	
 In an indoor case, it ven The thing used as the ne In the case of work, a 	tilates enough. eighboring source of ignitio		I glove, a protection mask, an apron, goggles) is

·Keep out of reach of children. Section 8: Exposure Prevention Equipment Management concentration : 200ppm (Labor security and hygiene law) (Methanol) 200ppm (HYDROCARBON SOLVENT) TLV-TWA(skin): 200ppm (Japan Society for Occupational Health) (Methanol)				
Section 8: Exposure Prevention Equipment Management concentration : 200ppm (Labor security and hygiene law) (Methanol) 200ppm (HYDROCARBON SOLVENT) TLV-TWA(skin): 200ppm (Japan Society for Occupational Health) (Methanol)				
Management 200ppm (Labor security and hygiene law) (Methanol) concentration : 200ppm (HYDROCARBON SOLVENT) TLV-TWA(skin): 200ppm (Japan Society for Occupational Health) (Methanol)				
Management 200ppm (Labor security and hygiene law) (Methanol) concentration : 200ppm (HYDROCARBON SOLVENT) TLV-TWA(skin): 200ppm (Japan Society for Occupational Health) (Methanol)				
concentration : 200ppm (HYDROCARBON SOLVENT) TLV-TWA(skin): 200ppm (Japan Society for Occupational Health) (Methanol)				
TLV-TWA(skin): 400ppm (AGCIH) (NORMAL HEPTANE)				
TLV-TWA(skin):890ppm (AGCIH) (WHITE SPIRIT)				
·The partial exhaust is prepared.				
·eye-washing equipment and a safe shower are prepared				
Protection of an eye: Wear protection glasses.				
•Protection of the skin: Wear the glove of a material with which the organic solvent-proof or chemicals does not	permeate.			
Protection of a respiratory-organs system: Wear the gas mask for organic solvents.				
A ventilation mask is worn in the sealed place.				
Section 9: Physical / Chemical Characteristics				
Appearance/state : Clear transparent volatility liquid.				
Specific gravity (density) : 0.78(25)				
Solubility : It is not mixed with water.				
Section 10: Stability and Reactivity				
Flash point : 22 above				
Inflammability : There is an inflammability.				
Explosion limit : Un-measuring				
Oxidizing quality: It does not correspond.				
Ignition point : Un-measuring				
Stability, reactivity : Stable in the usual handling.				
Section 11: Toxicological Information				
A skin corrosive : With no knowledge.				
Eye stimulation: Stimulation may be shown.				
Skin stimulus: 20mg / 24hr Stimulative [Middle] (Rabbit) (As Methanol: Decomposition natu	re inaredient)			
	Eye stimulus : 100mg / 24hr Stimulative [Middle] (Rabbit) (As Methanol : Decomposition nature ingredient)			
Acute toxicity : LD50 : 5628mg / Kg (Rat) (As Methanol : Decomposition nature ingredient)	i e ingrearent)			
LC50 : 64000ppm(Rat) (As Methanol : Decomposition nature ingredient)				
• Those with a possibility of causing conjunctivitis beadache, giddiness, incompia, digestive tr	ouble, and			
	an eyesight obstacle. (As Methanol : Decomposition nature ingredient)			
Aerosol mist and the smell of a solvent may do damage healthily.				
Section 12: Ecological Information				
• Since there is a possibility of affecting environment, in the cases, such as disclosure and abandonment,	be careful of			
handling.				
·Cope with it so that especially a product and washing water flow directly neither to the ground, a river nor a dra	ain.			
Decomposition nature : With no data.				
Accumulation nature : With no data.				
Aquatic life living thing toxicity : With no data.				
Do not pass with a river, a sewer, etc.				

Section 13: Disposal Consideration
•Wastes, such as an abolition paint and a container, process by carrying out the industrial waste treatment company and
consignment contract which obtained permission.
•The drainage which washed a container, apparatus equipment, etc. is passed as it is neither to the ground nor a drain.
•Waste generated by drainage processing, incineration, etc. is also processed according to the law with which processing of
waste and cleaning are related, and a related regulation, or it commissions.
Section 14: Transport Information
Common matter : • Fire strict prohibition
• On the occasion of conveyance, it confirms that there is no leak in a container, it loads so that there
may not be a fall and fall damage, and prevention of collapse of cargo piles is ensured.
The publication of notes on handling and storage is followed.
When it corresponds to Fire Service Law, labor security and hygiene law, and a poison highly poisonous
substance method, the transportation method set to each applicable law is followed.
Fire and direct rays are avoided.
• Fire Service Law It applies to the first oil of the 4th kind. (Japanese law)
Marine transportation : The place set to Law for Safety of Vessels is followed.
Air transportation : The place set to the Aviation Act is followed.
The U.N. classification and the U.N. number : Class-3: 3295 (HYDROCARBON SOLVENT) Class-3: 1206 (NORMAL HEPTANE)
Class-3:1263 (WHITE SPIRIT)
Packing Group: III
Section 15: Regulatory Information
Fire Service Law : An inflammable liquid. It applies to the first oil of the 4th kind. (Japanese law)
PRTR : It does not correspond.
Labor security and hygiene law : Quality of the notice subject of a safe health method (0~10%) (HYDROCARBON SOLVENT)
(WHITE SPIRIT) (NORMAL HEPTANE)
An organic rule : Organic-solvent poisoning prevention rule The 2nd sort
Law for Safety of Vessels : Inflammable liquids: Middle flash point inflammability liquid
Aviation law : Inflammable liquids
Wastes Disposal and Public Cleaning Law: It is management industrial waste specially. Waste oil
Section 16: Other Information
The reference of written contents : Up to a guarantee-of-quality room
Based on the information acquired at present, about the danger detrimental nature of a product, since the above information
is not enough, mind.
Especially in special handling, notes need consideration for the usual handling.
Values, such as a content and physical character, should be reference values among written contents, and since it is not a
guarantee value, mind.
